Natural Hazards 4 (1991).

Contents of Volume 4

Volume 4 No. 1 1991

ARISTOTELES VERGARA MUÑOZ / Probabilistic Seismic Hazard Maps for Panama 1

YUKIO FUJINAWA / A Method for Estimating Earthquake Occurrence Probability Using First- and Multiple-Order Markov Chain Models 7

DIANA COMTE and MARIO PARDO / Reappraisal of Great Historical Earthquakes in the Northern Chile and Southern Peru Seismic Gaps 23

M. S. KOTTURI, T. S. MURTY, and M. B. DANARD / Influence of 850 mb Trajectories on Acid Precipitation in Southwestern British Columbia 45

DAVID ALEXANDER / Applied Geomorphology and the Impact of Natural Hazards on the Built Environment 57

Research Notes:

T. S. MURTY and M. RAFIQ / A Tentative List of Tsunamis in the Marginal Seas of the North Indian Ocean 81

PATRICK WEBB, JOACHIM VON BRAUN, and TESFAYE TEKLU / Drought and Famine in Ethiopia and Sudan: An Ongoing Tragedy 85

NATURAL HAZARDS

Volume 4 Nos. 2 & 3 1991

Special issue on

TSUNAMI HAZARD

edited by

E. N. BERNARD

Pacific Marine Environmental Laboratory, NOAA, Seattle, Washington, U.S.A.

E. N. BERNARD / Preface 113

E. N. BERNARD / Fourteenth International Tsunami Symposium: Opening Address 115

F. I. GONZALEZ, C. L. MADER, M. C. EBLE, and E. N. BERNARD / The 1987–88 Alaskan Bight Tsunamis: Deep Ocean Data and Model Comparisons 119

P. D. KOVALEV, A. B. RABINOVICH, and G. V. SHEVCHENKO / Investigation of Long Waves in the Tsunami Frequency Band on the Southwestern Shelf of Kamchatka 141

B. C. PAPAZACHOS and P. P. DIMITRIU / Tsunamis In and Near Greece and Their Relation to the Earthquake Focal Mechanisms 161

N. SHUTO / Numerical Simulation of Tsunamis – Its Present and Near Future 171

KENJI SATAKE and HIROO KANAMORI / Use of Tsunami Waveforms for Earthquake Source Study 193

HARRY H. YEH / Tsunamis Bore Runup 209

COSTAS EMMANUEL SYNOLAKIS / Tsunami Runup on Steep Slopes: How Good Linear Theory Really Is 221

OSAMI NAGANO, FUMIHIKO IMAMURA, and NOBUO SHUTO / A Numerical Model for Far-Field Tsunamis and Its Application to Predict Damage Done to Aquaculture 235

YOSHINOBU TSUJI, TAKASHI YANUMA, ISAO MURATA, and CHIZURU FUJIWARA / Tsunami Ascending in Rivers as an Undular Bore 257

STEFANO TINTI / Assessment of Tsunami Hazard in the Italian Seas 267

CONTENTS OF VOLUME 2

E. N. BERNARD / Assessment of Project THRUST: Past, Present, Future 285

E. LORCA / Integration of the THRUST Project into the Chile Tsunami Warning System 293

SALVADOR F. FARRERAS and ANTONIO J. SANCHEZ / The Tsunami Threat on the Mexican West Coast: A Historical Analysis and Recommendations for Hazard Mitigation 301

Meeting Reports 317

Volume 4 No. 4 1991

V. M. ZOBIN, E. I. GORDEEV, N. P. KOZYREVA, V. P. MITYAKIN, and V. N. CHIRKOVA / Kamchatka Earthquake of 17 August 1983: A Large Intermediate Event at the Junction of the Aleutian and Kuril-Kamchatka Arcs 327

ALEC PAUL / Studies of Long-Lived Hailstorms in Saskatchewan, Canada from Crop Insurance Data 345

G. A. McKAY / The Changing Atmosphere: A Review 353

FAHIM ASHKAR, NASSIR EL-JABI, and SEMAAN SARRAF / Study of Hydrological Phenomena by Extreme Value Theory 373

N. N. AMBRASEYS and R. D. ADAMS / Reappraisal of Major African Earthquakes, South of 20°N, 1900-1930 389

PÄIVI MÄNTYNIEMI and ANDRZEJ KIJKO / Seismic Hazard in East Africa: An Example of the Application of Incomplete and Uncertain Data 421

Book Review:

Ota Kulhánek: *Anatomy of Seismograms* (C. LOMNITZ) 431

Erratum:

Emile A. Okal: Seismic Parameters Controlling Far-Field Tsunami Amplitudes: A Review. *Natural Hazards* **1**: 67-96 (1988) 433
